Sychpwll

Venue

Tucked away from the hustle and bustle of daily life, Sychpwll is the perfect rural retreat for your wedding event. It is the ultimate place for country lovers with a passion for the environment and natural beauty.

Whether you're planning a traditional wedding reception, a modern soiree, or a mini festival, Sychpwll guarantees to provide the unique memory you're after.

Sychpwll

Basics

Every wedding at Sychpwll is unique. We are a blank canvas allowing you to decide exactly how the site is designed and organised for your day. Each wedding booking includes exclusive use of both our 2 and 5 acre meadows, the wildlife corridor, the staw-bale kitchen and toilet block with showers.

As our site is an eco-site we are currently only allowing a maximum of 8 weddings a year.

Sychpwell

— Meadows —

There are two options of meadow to erect your structures and design your layout. The large 5 acre wildflower meadow tends to be left long in the summer months making perfect to add small walkways and mowed spaces. It is particularly popular as a camping / glamping area for guests. The smaller 2 acre meadow is very flat with high hedges either side for a more intimate feel.

Suppliers

As everyone's taste is different, we make it simple for you to use your own suppliers. We are of course happy to recommend suppliers where necessary.

We don't charge any corkage fees, but request that any bottles / cans you bring to the site are removed.

Sychpull

— Accommodation —

We have a number of accommodation options located on site. There is the farmhouse, wooden cabin and 'Hobbit House' all with private bathrooms and kitchens that can be rented by guests. On site camping is also an option, and some people have previously decided to create a 'glamping' field.

The towns of Shrewsbury, Oswestry and Welshpool are located close by and have a range of hotels to suit any budget.

Sychpwell

— Straw-Bale Complex —

Sychpwell is home to a number of buildings predominantly made with straw-bale and lime plaster. There is a stand alone kitchen, with full set up for campers and guests, as well as an adjacent toilet and shower block. There is also a large multi-purpose barn with an elevated platform and sleeping area. This does not come as standard with every wedding but can be hired for a fee. It can be used as a rain-safe space, a dance floor, dorm-style accommodation or simply as a storage space for decorations / any deliveries you may need in the lead up to your event.
